Greetings,

I am writing in regard to MB Docket No. 04-233. If I understand this correctly, the FCC is proposing to expand Low Power FM (LPFM) to allow new LPFM stations to take priority over current FM translator service. I am asking you to not allow this to happen.

I am a daily listener to the K-LOVE radio network, a non-profit, listener supported radio service broadcasting Christian music and programming. K-LOVE relies on FM translators to reach hundreds of thousands of listeners across the United States. If you enact the proposed rule changes, LPFM will be given a priority over FM translator service, potentially preventing all those people from hearing K-LOVE.

I challenge each and every one of you to listen to K-LOVE or AIR1 radio to evaluate for yourself the good news and music provided to America.

Please reconsider the effects of enacting LPFM over current FM translators. God Bless you and God Bless the United States of America.

Scott Suckow
